SINCE 1972 | A LEGACY OF INNOVATION

Your expert work deserves the best taxidermy foam. One that's better for your business — and better for the environment.

Wildlife art deserves the highest quality taxidermy foam at its core. At FSI, we've led the polyurethane industry since 1972, and are proud to offer foam kits that are ideal for taxidermy use. Our foam kits are economical, environmentally friendly and delivered in the size that's best for your business.

Beauty is more than skin deep.

A great look on the outside starts with great foam on the inside.

For large or small mounts, our foam kits are available in multiple sizes and densities to provide the versatility and performance your wildlife art requires.

FSI taxidermy foam is the best way to help preserve our natural environment, while you preserve its creatures — and your profits.

For more information or to order, visit www.fsifoamkits.com today.

Taxidermy foam that's right for any size project – large or small.

Whether you're mass producing forms or creating individual works of wildlife art, high-quality FSI Taxidermy Foam offers you the flexibility, versatility and performance to handle any size job. Once the two components have been mixed and allowed to set, the foam can be cut and shaped to any contour. FSI Taxidermy Foam is chip resistant and durable enough to hold tacks and staples.

FSI Taxidermy Foam Kits are available in a variety of sizes and densities, all with a 2-year shelf life.

2-Gallon Kit

Available in 2 lb or 4 lb densities.

10-Gallon Kit

Available in 2 lb or 4 lb densities.

Drum, tote sets and customized solutions are also available.
