

ecomarine™

2-COMPONENT RIGID POLYURETHANE FOAM

• Ecomarine meets or exceeds U.S. Coast Guard requirements for flotation materials specified in 33 CFR §183.114

Flotation & Comfort Boating Foam with Lifetime Performance

Environmentally responsible.

As momentum gains to phase out hydrofluorocarbons (HFCs) in flotation foam blowing agents, Ecomarine™ polyurethane foam offers recreation marine manufacturers a compliant, sustainable foam solution. Formulated with our eco-friendly Ecomate® blowing agent technology, Ecomarine delivers optimal performance while easing the transition to HFC-free flotation foam.

PFAS-FREE

US EPA SNAP Compliant

No GWP, ODP or VOC

US Coast Guard Compliant (Title 33)

Superior Flotation Properties

Professional Technical Support
