

A great look on the outside starts with a great form on the inside.

Discover the difference Ecoform can make in your taxidermy projects.

Professional and amateur taxidermists require foam with pristine, grain-free surfaces and the durability to hold tacks and staples to create beautiful and lifelike mounts of all manner of wildlife. ECOFORM is a user-friendly two-part high-density polyurethane solution for taxidermists, scientists, and wildlife artists. ECOFORM aids in the creation of stunning, lifelike mounts that stand the test of time, enduring for generations.

Environmentally Friendly

We care about our planet and designed ECOFORM to be eco-friendly

Regulatory Compliant

Rest easy knowing that ECOFORM meets and exceeds all relevant regulations

No Phase Out

With its compliance, ECOFORM is here to stay

Good Flowability

ECOFORM captures every detail in your mold

High Density

With a 3 lb density, ECOFORM allows tacks and staples to be added securely

Sculptable

Easily scarfed, sanded, and cut, ECOFORM is simple to work with
